ECO-EFFICIENT ESCALATOR

KONE TravelMaster™ 110 has achieved A+++ energy performance certificate based on ISO standard.

4 WAYS TO MAKE YOUR ESCALATOR MORE ECO-EFFICIENT:

- High efficiency motors minimize energy consumption at full speed.
- Lubrication-free step chain means no oil, a cleaner escalator and environment, reduced fire hazard, simpler cleaning and easier maintenance.
- Long-lasting led lighting is up to 80% more efficient than fluorescent lighting and lasts up to 10 times longer.
- Eco-efficient operational modes save energy by slowing down or stopping the escalator completely when traffic is low. For example, when an escalator is empty, energy consumption is further reduced by slow stand-by speed and furthermore by stopping the escalator.

FLEXIBILITY TO MATCH YOUR BUILDING REQUIREMENTS

KONE TravelMaster™ TM110 is a commercial escalator designed to satisfy all needs of a customer in the retail environment. It is engineered to maximize the shopping experience for your end users, guaranteeing the perfect combination between safety and visual appearance.

Seismic Provisions

For seismic environments a full proposal of different mountings are available, to match even the strongest conditions.
