- All dimensions are in millimeters
- Maximum vertical rise $\mathrm{H}=15.57 \mathrm{~m}$ *
- One intermediate support is required when the span (L) exceeds $\mathrm{L}=16800 \mathrm{~mm}$. Second intermediate support required when span ( L ) exceeds $\mathrm{L}=32000 \mathrm{~mm}$

If intermediate support is required, please contact your KONE sales organization

- Truss extensions are required at the upper head depending upon height rise and motor size. For these dimensions please contact your local sales organization
* For rises above 15.57 m please contact your local KONE Sales organization.
